

# BURCOT VILLAGE HALL, BROMSGROVE

## Remedial Works & New PlayBond Safer Surfacing!

We were contacted by Burcot Village Hall to discuss their requirements for remedial work that was needed to their trim trail and swings – following their latest playground inspection.

Following a discussion onsite, we agreed that it was better value for money long-term to replace the rotten timbers with Recycled Plastic – which does not rot/degrade when installed.

We replaced several uprights on the trim trail items, and also the upright posts on the Double Swing Frame.

We also removed the old rotten timber bark pit surround and replaced with Recycled Plastic boards.

Inside the pit, we installed our PlayBond bonded rubber mulch safer surfacing to make the area safe for use.

Installed in October 2021

Value – £13,702 + Vat
