

CRAIGNURE VILLAGE HALL, ISLE OF MULL

Completely new play equipment and safer surfacing!

We were contacted by members of the Community Council on Craignure a couple of years ago - to discuss the possibility of replacing their old, tired play area. Being as their location is right on the coast, it was agreed that Recycled Plastic play equipment would be the best and most sustainable option for their new playground - as this will not rot or erode even as close to the coast as this playground is.

We designed a 2-Phase project for the customer and this is Phase 1 completed - a Bespoke Trim Trail, 2 Sets of Swings (and Grass Mats safer surfacing), Play Boat, and a Toddler Town - all manufactured from Recycled Plastic.

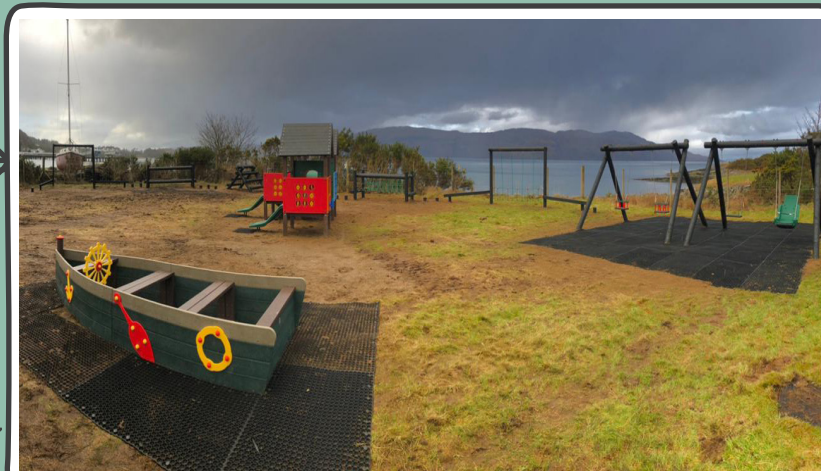

Installed in March 2020

Value - £28,333.33 + Vat
