

CRANFIELD PLAY AREA

New Playground Equipment & PlayBond Safer Surfacing!

We were contacted by Cranfield Parish Council to discuss their need of new play equipment for Cranfield Play Area. Having decided that they wanted their new play equipment made from Recycled Plastic, and having discussed their requirements during an onsite meeting, it was agreed that a modified version of our PlayMaster Climbing Frame – made from Recycled Plastic – would best suit both the area available and have the play features that the children would enjoy using.

We removed and disposed of the old timber climbing frame, and installed the PlayMaster with our PlayBond safer surfacing – installed over the existing Wepour surfacing to save the client the cost of disposing of the old rubber.

Installed in September 2021

Value – £29,444.79 + Vat
