

POWERSTOCK PRIMARY SCHOOL

Bespoke Trim Trail (timber) and PlayBond running Daily Mile Track.

Powerstock Primary School were looking to refresh their existing play equipment - and also to incorporate a Daily Mile running track for the pupils.

A bespoke Timber Trim Trail was created with items that focused on balance, core strength and hand-eye co-ordination. We removed and disposed of a few pieces of the old play equipment to make room for the new equipment, which was installed with steel feet on the upright posts where required.

We also installed a Daily Mile running track made using PlayBond (bonded rubber mulch) around the school grounds.
