

ST. IVES BAY HOLIDAY PARK

New recycled plastic play equipment!

We were contacted by St. Ives Bay Holiday Park as they had seen our Recycled Plastic play equipment advertised and promoted on our website, and thought that this would be perfect for their new play equipment requirements – given their location to the coast.

On the beach play area, we supplied and installed a modified Up & Over Platform with Stainless Steel Slide and also Stainless Steel fixings throughout the item.

In another area of the park, we installed our Basket Seat Swing – also manufactured from Recycled Plastic. The client was very happy with this installation after we had finished.

Installed in June 2020

Value – £8,560.00 + Vat
